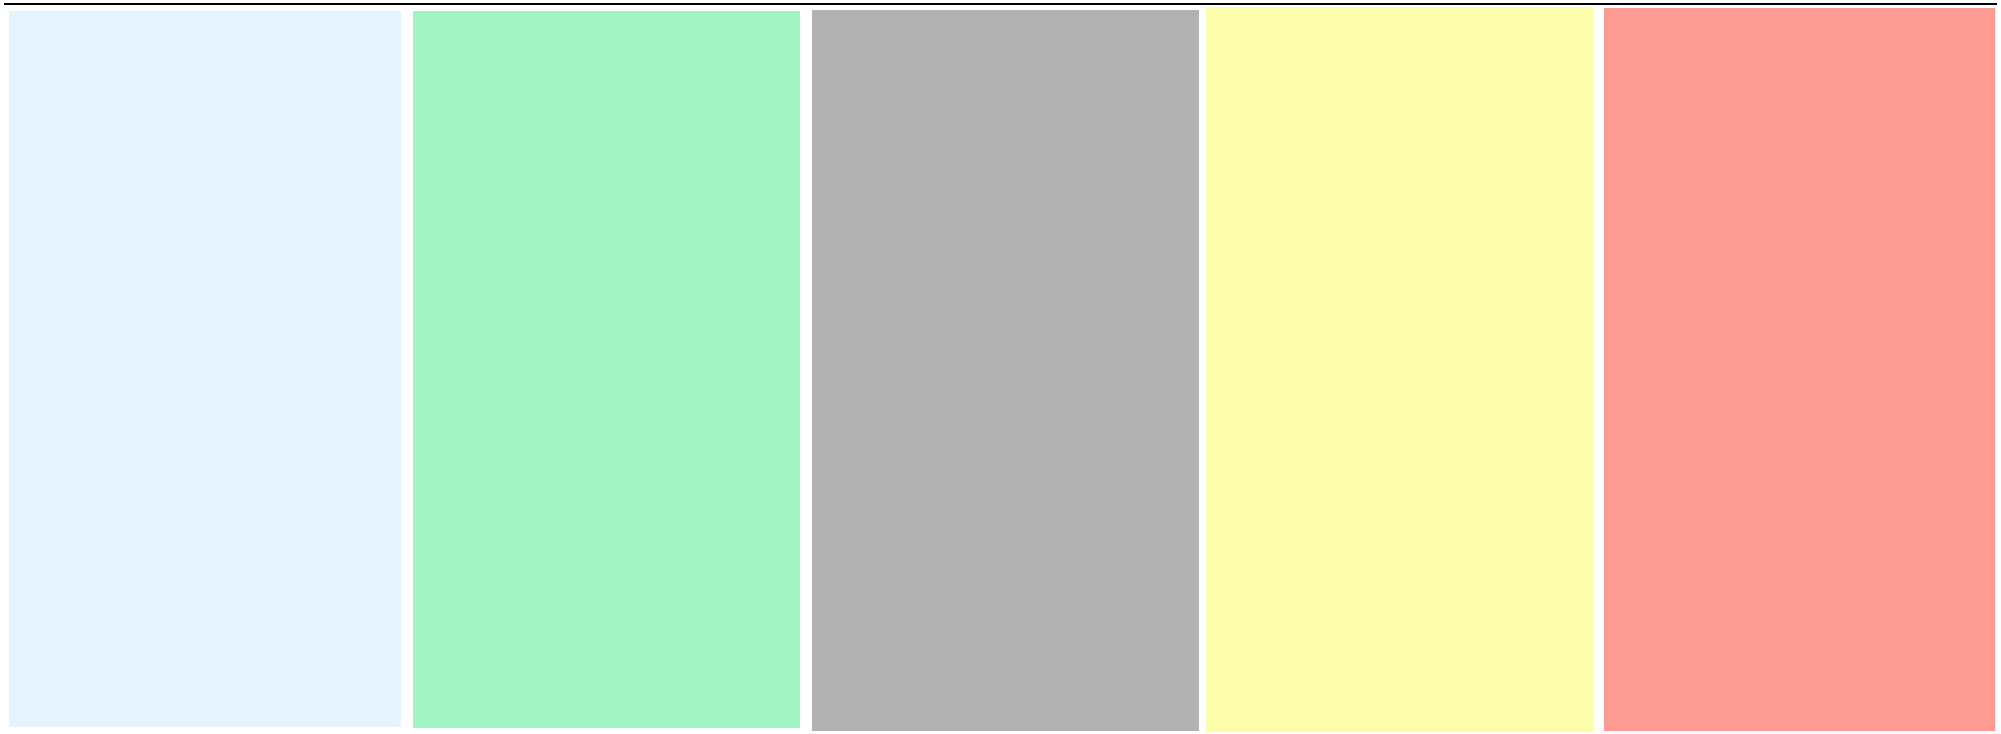
Wraparound Troubleshooting Form

Starting Point	Mission Statement	Strengths	Needs	Outcomes
Use the space below to identify the initial conditions that were in place when the family first entered Wraparound. Describe this situation in no more than three sentences that describes what brought the family to Wraparound.	List the mission statement in the space below. Does the Mission Statement reflect an alignment with the initial conditions or starting point? Does the family and team refer to that Mission Statement when describing their work together?	Use the space below to list the main strengths that are discussed in meetings and used in the Plan of Care. Do the strengths that are reflected in documentation and the Plan of Care include strengths that can be used to offset the initial conditions that brought the family to Wraparound in the first place?	Use the space below to identify the three to five needs that are the basis of the plan? Do the needs reflect underlying causes that can explain the initial conditions? What are the needs that have been the focus of team meetings and plan development?	Use the space below to identify the outcomes that you use with the Team & Family to measure progress? Do the outcomes that are the focus of the Plan address the initial conditions and chosen needs? Have the outcomes been used to manage the Team & to make modifications in the Plan of Care?



Wraparound Troubleshooting Form

Starting Point		Mission Statement		Strengths		Needs		Outcomes	
Are the initial conditions better? now than when the family entered?	Choose One	Does the Mission address the Starting Point?	Choose One	Strengths can be used to offset initial challenges?	Choose One	Needs are consistent with the starting point?	Choose One	Outcomes address initial conditions	Choose One
		Does the team use the Mission in discussions?	Choose One	Increasing use of functional strengths in family life?	Choose One	Need met rates measured & discussed throughout	Choose One	Outcomes reflect result of addressing unmet need	Choose One
