

What's in the SoC ECHO Tool Kit

The SoC ECHO toolkit is intended to help the Youth Involved with Multiple Systems learning community to "connect the dots" on key themes in the management of complex Youth Involved with Multiple Systems cases that arise from the weekly case discussions and recommendations as well as to share associated resources from the sessions.

Click on any box to go to toolkit.

For more information about Project ECHO, visit grc.osu.edu/projects/SoC-ECHO
